

ANDRITZ transportation systems

Flexible solutions for conveying process materials.

The challenge: efficient and reliable conveying for your products.

No matter how big or small or simple or complicated your production process is, your productivity is largely the result of moving materials through your plant in a timely, efficient, and reliable manner. That

is the task of conveying technology. Conveying is the backbone of your plant – one of the most important aspects of adding value during production. This is why you need efficient solutions which

are specially adapted to your requirements: solutions that perform flawlessly, safely, and affordably.

Selecting your conveying technology partner:

The supplier you partner with for your conveying technology should:

- Be up-to-speed on all current conveying technologies and have extensive experience in plant and mechanical engineering.
- Offer you complete packages: including interfaces and service.
- Have experience in developing specialized solutions precisely for your requirements with the target of enhancing your efficiency.
- Have a network of qualified experts and sub-suppliers to assist with any project.
- Offer you complete solutions – from planning to delivery to assembly to start-up – and service support from spare parts management to complete life cycle management.

ANDRITZ transportation systems is the right partner for you!

The ANDRITZ solution:

CompaCon products and services from ANDRITZ transportation systems.

On the right path to efficiency and profitability. Well-applied conveying technology optimizes the transport paths for your process materials and finished good. ANDRITZ CompaCon conveying products enhance your production efficiency. This focus by ANDRITZ transportation systems on efficiency not only meets your internal production needs, but also enhances your overall plant profitability.

ANDRITZ CompaCon is a modular system. The product range includes:

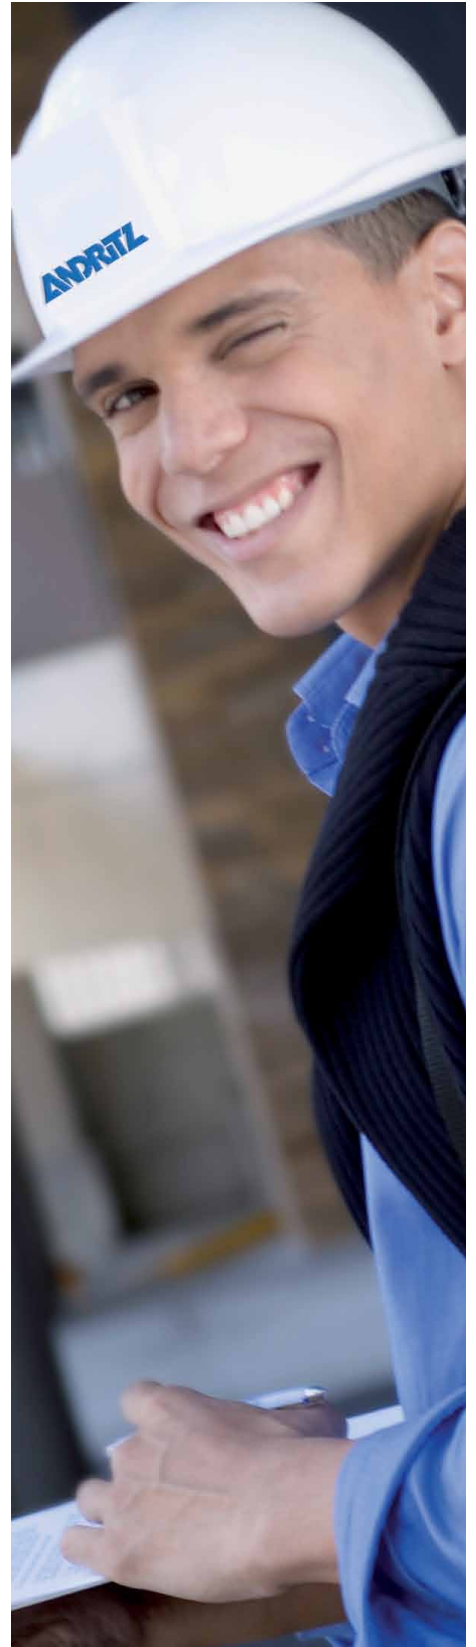

- screw conveyors
- chain conveyors
- bucket elevators
- belt conveyors
- apron conveyors
- customized conveyors for special applications

What is important is that the CompaCon components are integrated with one another in such a way that the material to be conveyed is transported efficiently and safely.

A complete package from plant engineering to reliable service

ANDRITZ transportation systems is part of the international ANDRITZ GROUP – a leading provider of plant engineering services and services for several industries. The Group is headquartered in Graz, Austria and currently employs 16.100 people. ANDRITZ operates over 180 production sites, service facilities, and sales companies around the world.

ANDRITZ CompaCon products are based on proven ANDRITZ quality and supported with excellent service. Our work begins with a comprehensive analysis of your needs, followed by careful planning and include individual solutions, prompt delivery, assembly and start-up. The on-going servicing and maintenance of your systems are as much a part of this as are the training, advising, and support we provide your team.

ANDRITZ transportation systems – your advantages at a glance:

- **Quality and optimized solutions:** a broad product portfolio of conveying products to efficiently move your conveyable materials – from a partner who is specialized in conveying technologies and has extensive knowledge of plant and mechanical engineering.
- **Efficiency:** transport solutions aimed at enhancing your efficiency.
- **Reliable operation:** a global network of local ANDRITZ partners ensures the reliability of your system.
- **Service:** complete service from planning to delivery, assembly to start-up, spare parts management to training and maintenance to life cycle management.

Please fill in the form below and fax or post it to us and we will provide the requested proposal information.

Name, address:			
Industry/production:			
Material to be conveyed:			
Flow rate:	m ³ /h	Bulk density:	kg/m ³
Characteristics of the material to be conveyed:			

ANDRITZ CompaCon products

Yes, for the proposal I require the following ANDRITZ CompaCon products **(please check all that apply)**.

Screw conveyors ANDRITZ CompaCon TS series

Belt conveyors ANDRITZ CompaCon BC series

Bucket elevators ANDRITZ CompaCon BE series

Chain conveyors ANDRITZ CompaCon CC series

Apron conveyors ANDRITZ CompaCon AC series

Drag chain conveyors ANDRITZ CompaCon DC series

Pipe conveyors ANDRITZ CompaCon PC series

Roller conveyors ANDRITZ CompaCon RC series
